

Australian School Based Traineeship Certificate IV Printing & Graphic Arts (Multimedia) ICP40210

THE JOB — Games Reviewer (Trainee)

If you would like to help review games across all gaming platforms such as Xbox, PS3, DS, PSP, PS2, Wii, PC and many more then this ASBA is for you.

You will receive all the appropriate training such as understanding target audiences, techniques of game design, visual design, user interfaces, navigation, authoring interactive media, understanding scripting language in authoring, testing of interactive media products, skills in creating 3D digital animations and 3D digital models. This training will also give you skills in 3D digital character animation, 3D digital models for production and 3D digital environments.

After successfully completing the initial period of training in understanding the technique and background in game design you will be trained on game console platforms and how to professionally review commercial games from PG through to MA+.

This qualification may earn credits towards your VCE or VCAL qualification and it requires one day per week attendance at the 26P Sandringham office for work & training. Your employer will be 26P Pty Ltd.

INTRODUCTION

The Australian School Based Apprenticeship (ASBA) program offered by 26P provides Year 10, 11 and 12 students the opportunity to study Certificate IV in Printing and Graphic Arts (Multimedia) while they complete their high school certificates. This course is the pathway into the Advanced Diploma of Printing and Graphic Arts (Multimedia) or (Management / Sales) or (Process Improvement). On completion of the Certificate IV your career path could be that of a Multimedia Developer or Technician, a Website Designer, Content Developer, Web Publisher, or Electronic Publisher.

TRAINING IS PROVIDED BY A REGISTERED TRAINING ORGANISATION

All training is provided at the workplace, students do not need to attend any other external institution.

Training Institute of Australia (your RTO) provides all students with:

- Tried and tested delivery of its graphic arts program over the past six years.
- Access to experienced trainers with 15 years experience
- Abundant resource materials including online tutorials and various texts
- Workplace experience designing and producing materials in a business environment
- A Nationally Accredited Qualification

Australian School Based Traineeship Certificate IV Printing & Graphic Arts (Multimedia) ICP40210

RTO SCOPE OF REGISTRATION

Training Institute of Australia is a Registered Training Organisation delivering Victorian Government funded training in:

- Printing and Graphic Arts (Desktop Publishing)
- Printing and Graphic Arts (Multimedia)
- Information Technology
- Business
- Tourism

COURSE DURATION

Courses commence twice per year, however commencement dates can sometimes be adjusted to suit individual needs. Completion will vary from student to student but in general the course can usually be completed in eighteen months.

SELECTION PROCESS

After the applications have been received, interviews for applicants will be held. Successful candidates will be required to attend an induction prior to the commencement of work.

WAGES

ASBA staff will work up to one day each week and will earn the following hourly rates: Year 10 & 11 - \$7.27 per hour; Year 12 - \$7.99 per hour. The company pays all fees for training and training materials.

TIMETABLE

Training delivery will be intensive in the initial stages of the course. As students achieve competency using graphics applications and equipment and gain sufficient proficiency they will be given the opportunity to apply their skills producing content for the company.

All training will be delivered in the workplace. Training will consist of self-paced workbooks, group training sessions, online tutorials, one-on-one training as required, design projects and open book exams.

OCCUPATIONAL HEALTH AND SAFETY

Occupational Health and Safety is a compulsory component of the Certificate IV course. Successful candidates will complete the OH&S training immediately on commencing the course.

ASSESSMENT TASKS

The Certificate IV is completed via a series of training sessions, workbooks and projects.

Assessment tasks include:

- Completion of workbooks and projects
- Attendance at training sessions
- Completion of tutorials and workshops
- Creation of multimedia content
- Written exams

Assessments are undertaken on completion of each unit or group of units.

COURSE CONTENT

Subject to confirmation prior to commencement, the following units will comprise the course ICP40210:

GROUP 1 - THE BASICS

ICPSU260C Maintain a safe work environment

ICPSU262C Communicate in the workplace

ICPMM263C Access and use the Internet

BSBSUS301A Implement and monitor environmentally sustainable work practices

GROUP 2 - DESIGN

ICPPP211C Develop a basic design concept

ICPPP221C Select and apply type

ICPSU216C Inspect quality against required standards

ICPPP225C Produce graphics using a graphics application

ICPPP224C Produce pages using a page layout application

ICPPP284A Produce PDF files for online or screen display

ICPPP396A Generate high-end PDF files

ICPPP334C Prepare an imposition format for printing processes

ICPPP435C Generate complex imposition

CUFCMP301A: Implement copyright arrangements

BSBWOR404A Develop work priorities

BSBWOR501A Manage personal work priorities and professional development

Australian School Based Traineeship Certificate IV Printing & Graphic Arts (Multimedia) ICP40210

GROUP 3 - MULTIMEDIA

CUFDIG304A Create visual design components
CUFPPM404A Create storyboards
CUFDIG403A Create user interfaces
CUFDIG401A Author interactive media
ICAB5165B Create dynamic web pages
CUFDIG404A: Apply scripting language in authoring
CUFDIG503A Design e-learning resources
CUFDIG504A Design games
CUFDIG505A Design information architecture
CUFDIG501A Coordinate the testing of interactive media products

GROUP 4 – 3D

CUFANM302A Create 3D digital animations
CUFANM303A Create 3D digital models
CUFANM501A: Create 3D digital character animation
CUFANM401A Prepare 3D digital models for production
CUFANM502A: Create 3D digital environments
